Very minor comments. Please have someone fix these.

Use "up to" to fix the gap.

Samuel Coleman, P.E.
Director, Superfund Division Region 6

Please see the comments on the sampling plans below. If you can make these changes, we can post tomorrow. I'll leave it up to you as to whether or not you want to keep the names in the plan.

Dana S. Tulis
Acting Office Director
Office of Emergency Management
Environmental Protection Agency
202-564-8600

Dana,

Attached is the executive summary agreed to by all reviewers (OW, OAR, ATSDR). In addition there were comments on the Region 6's plan and some general comments for both plans. I am sending you these because Schatzi is out today.

Constance Haaser
Chief Architect - Information Management

Connie,
The Office of Air, ATSDR and Office of Water have concurred on the QASP ES.

EXECUTIVE SUMMARY 52810 combined.doc

Comments for Region 6

1. There is a large area of water not accounted for -- from 100 feet to 1 mile. This should be rectified. Perhaps by adding the bays and estuaries component? (page 5 and the Table on page 7 and page 8).
2. Page 13 - Section 3 - sync the sampling zones with the bays and estuaries and area between 100 feet and 1 mile.
3. The document references Appendix F and G, but they are not attached.
4. The document lists Table 3-1 but it is not included in the document.
5. Appendix D - check to make sure this is the most up -to-date. It doesn't seem to have vanadium, for example.

Comments for both Region 4 and 6

1. Recommend modification of the plans to make them suitable for posting (e.g., take out specific names and phone numbers).
2. Recommend adding the reporting limits of the methods to the Table 4-1 that includes the holding times and other information.
